SUMMARY

Excellent, creative and motivated team player with versed industry and research experience in the investigation and prognosis of laboratory diagnosis, pharmaceutical quality control and environmental management. A great writer with wealth of experience in writing, managing and developing contents that converts and rank in Google's first page.

Current professional goal: to use my skills to increase the returns on investment of any company through effective project management and monitoring of its implementation.

Presently looking for a position/opportunity that provides an opportunity to take the next step on my career ladder. I'm open to learn and improve on my skills. Seeking to become a valuable addition and contributing my quota to the effective growth of any institution I find myself.
