Summary

A lifelong learner and full-stack software artisan with 5+ years of experience. I thrive on pushing the boundaries of what's possible and I'm fueled by a thirst for knowledge and a relentless pursuit of excellence. My passion for innovation and problem-solving drives me to create software that makes a difference. I also love creating solutions that the next guy can find easy to use.

Skills

PHP,   Object-oriented programming,   MVC Architecture,   Laravel,   Wordpress, Elementor, WpBakery, Divi,   Wordpress Theme Development,   Wordpress Plugin Development,

Javascript, Jquery,

Education

Ladoke Akintola University of Technology / B.Tech Agricultural Engineering
01 2018 - 07 2023, Ogbomoso Oyo State, Nigeria

Experience

ODIO DIGITAL INC / Software Engineer & Engineering Manager | Mastering WordPress, PHP, JavaScript

12 2023 - PRESENT, Edmonton, Alberta Canada (Remote)

As a Software Engineer and Engineering Manager at Odio Digital Marketing Agency, I spearhead the development of cutting-edge WordPress websites and web applications.

Achievements/Tasks

- Lead the architecture, planning, and execution for new and ongoing WordPress website builds for diverse clients.
- Lead the development lifecycle of custom WordPress plugins, to deliver scalable and maintainable solutions for diverse client needs.
- Drive adoption of agency-wide PHP standards and best practices, including dependency injection, Modular architecture, and Composer-based workflows.
- Coordinate with project managers, growth marketers and clients to translate business requirements into technical specifications and project roadmaps.
- Championing the adoption of modern development practices, version control, driving improved development efficiency and a notable reduction in production errors.
- Implemented all features required for an event/festival website, significantly boosting ticket sales over the course of a year.
- Act as the technical liaison between developers, project managers, growth marketers, and creative teams to align technical strategy with marketing objectives.

Cyclebreee R&D / Technical Assistant to The CTO and Software Developer

08 2022 - 06 2023, Ogbomoso Oyo State, Nigeria

Cyclebreeze is a Tech Research and Development company that creates and develops tech solutions for companies, individuals, and businesses.

Achievements/Tasks

- Provided strategic guidance to the CTO, leading the development of innovative software solutions.
- Successfully led cross-functional teams, fostering collaboration and driving product development initiatives.
- Designed and developed scalable, high-performance server-side architectures, for fin-tech and custom social media solutions, ensuring optimal system performance and user experience.

DCRYPT Technologies / Backend Web Developer

07 2020 - 02 2022, Lagos State, Nigeria (Remote)

Dcrypt Technologies is a company bent on providing software services to companies, businesses, individuals and also mostly with school automation.

Achievements/Tasks

- Spearheaded the development of high-performance full-stack software solutions, as I wasn't limited to just Backend development.
- Conducted debugging and troubleshooting of existing applications, enhancing web performance.
- Implemented robust security measures, including input validation and authentication mechanisms, to safeguard user data and prevent vulnerabilities.
