## PROFILE

Freelance developer with 1.5 years of experience in mobile and web development, adept at transforming business requirements into effective digitized solutions. I bring a diligent approach to development and have experience in Quality Testing using Blackbox techniques to ensure robust deliverables.

## WORK EXPERIENCE

### Freelance Mobile & Web Developer

2024 - PRESENT

Freelancing

- Developed and deployed mobile applications tailored to specific client requirements.
- Engineered web applications that successfully met diverse business needs.
- Implemented timely updates and maintenance for existing applications.
- Mentored student teams in the successful development of their capstone projects.
- Collaborated with fellow developers to share knowledge and enhance coding techniques

### Quality Assurance Tester

May 2024 - Dec 2024

Matchder Group

- Performed Black Box and UAT testing to ensure application quality and user satisfaction.
- Managed bug reporting and tracking in Jira, facilitating efficient issue resolution.
- Collaborated directly with developers to prioritize and expedite bug fixes, minimizing downtime.

### INTERNSHIP

Dec 2024 - May 2025

DEVCON Philippines

- Maintained and enhanced multiple WordPress websites, ensuring optimal performance and user experience.
- Collaborated with and mentored fellow interns, fostering a supportive learning environment.
- Developed the official DEVCON Cohort Website, contributing to key organizational initiatives.
- Engineered the DEVCON Inventory Management system, improving operational efficiency.
- Provided technical mentorship in ICP Blockchain Motoko, guiding participants through complex concepts.
- Utilized SEO tools and applied web design techniques to improve site visibility and aesthetics.
- Gained practical experience working with Snowflake.

Anabasis Group

- Guided the successful deployment of mobile applications to both Google Play Store and Apple App Store.
- Advised business owners on post-deployment strategies for application maintenance and sustained performance.

## EDUCATION

---

**Bachelor of Science in Information Technology** 2021 - 2025  
Bulacan State University Meneses Campus  
Magna Cum Laude

**Information Communication Technology** 2018 - 2020  
Obando Senior High School  
With Honors

## SPEAKING ENGAGEMENTS

---

**DEVCON Philippines - "Basics of Snowflake in Node.js"**

Led a hands-on session for Cohort 2 Interns on using Snowflake CLI with Node.js, covering basic CRUD operations and integration into a web application.

**Pamantasan ng Lungsod ng Maynila - "OS-SOME Adventures in Android"**

Delivered a talk on the evolution of Android OS, why it became dominant, and how it shaped mobile development today. I also shared practical Android development tips for beginners and hobbyists

**Universal College of Parañaque - "Spring Boot and Thymeleaf"**

I walked students through creating a full-stack web application using Spring Boot and Thymeleaf. We focused on RESTful APIs, template rendering, and the speed advantages of using Spring Boot for enterprise-level applications.

**STI College - Malolos - "Java 101"**

In this session, I introduced Java programming to new developers and demonstrated basic syntax, OOP principles, and real-world applications of Java through short examples.

**Filipino Web Dev Peers - "Journey in Mobile Development"**

I gave an hour-long talk about my professional journey in mobile app development, with emphasis on Android. The session ended with a live AMA where I answered technical and career questions.
